

Bognor Regis In Bloom – 2022

The local community improving the local environment

Calling all 'green-fingered' Schools, Nurseries and Youth Groups!

Are you a teacher, youth leader, school gardener or a parent of a school aged child? If so, then why not consider signing up your/your child's setting, to take part in the Bognor Regis in Bloom 'Veg Growing' competition!

This is a FREE competition to enter, with seeds, a step-by-step guide and entry forms sent on sign up. Certificates are presented to all who take part and a prize presentation given to the winning entrant from 'In Bloom' judges and the Mayor!

Part of our 'In Bloom' ethos is to keep encouraging children to learn about what they eat and growing their own fruit and veg is a perfect and very healthy way of doing that! With so much attention on sustainability of our food sources, and the climate emergency we find ourselves in, it is more important than ever that we give our children the tools and experiences to begin implementing the changes needed for our planet to thrive again!

If you're interested in finding out more about the competition, then please register your interest by emailing the Committee Clerk: rebeccavervecken@bognorregis.gov.uk or by calling: 01243 867744.
