

Your Community Wardens

Making a difference!

What we can do to assist the community:

- provide a reassuring, uniformed patrolling presence
- provide an eyes and ears service aimed at reducing the fear of crime
- reduce incidents of anti-social behaviour by intervening at an early stage and providing intelligence to Police and the ASB team
- report environmental issues, such as fly-tipping, littering and graffiti to preserve the environment
- host community engagement events to give residents a voice
- support vulnerable members of the community by reducing isolation
- offer crime prevention advice
- work in close partnership with other agencies to the benefit of communities
- act as professional witnesses where appropriate
- offer support to victims of crime and anti-social behaviour in reporting incidents
- encourage more resilient local communities and support them to improve their surroundings

What we don't do:

- we are not a replacement for the Police
- we are not an emergency response service. A crime in progress or where there is a risk of harm should be reported to the Police directly
- as we do not work 24/7 there will be times when neither warden is on duty
- we do not provide a care service but are able to refer vulnerable people to relevant support agencies
- we are not parking wardens and cannot issue parking tickets
