

Virtual Meetings of the Parish Council

The Parish Council will now meet online.

The first meeting, a Planning Committee meeting, will take place on the 11th May 2020. Members of the public can take part by telephone at a normal local call rate. Details are at the foot of the agenda. To take part you need to phone the number displayed. You will be asked to input the meeting ID which is also at the foot of the agenda, then you will be asked your name. The Chairman will then invite you into the meeting and will ask which item you wish to speak about. If possible your topic will be brought to the top of the agenda. Only one person can speak at a time but all Councillors will hear your comments.

Two important points:

1. If another member of the public is in the phone conversation they will hear your comments.
2. If you are abusive or aggressive the Chairman reserves the right to cancel your call.

To view the phone number and meeting password required to attend an meeting, please see the relevant agenda.
